

NON-PROPRIETARY PARTS

Unlike our competitors, Superior Boiler uses non-proprietary parts when building our boilers and boiler room equipment.

FIND THE PARTS YOU NEED

Superior Boiler carries a variety of non-proprietary parts in stock and ready for shipping. We are able to offer these parts at a very competitive price.

OPTION TO EXPLORE SUPPLIERS

If Superior doesn't have your part in stock or you would like to use a different supplier, you have the opportunity to shop from a variety of places. This helps get what you need when you need it and helps decrease your downtime.

OUR TEAM READY TO HELP YOU

Though Superior Boiler keeps a large variety of parts in stock, there may be a part that is not available immediately. Our aftermarket team is available to help find the best solution to get your boiler back online as soon as possible.
